

RIMTA

Rhode Island Mathematics Teachers Association
Reflect. Inspire. Motivate. Transform. Adapt

RIMTA is a professional organization for people interested in mathematics education in Rhode Island. RIMTA traditionally holds three meetings each year, which feature talks and workshops by noted national and regional speakers and local experts. RIMTA Members become members of ATMNE: Association of Teachers of Mathematics in New England automatically, and receive the ATMNE news, as well as invitations to conferences throughout the region. RIMTA membership is rolling, which means your membership year begins as soon as you join, regardless of when that occurs on the calendar. Rhode Island Mathematics Teachers Association (RIMTA) is happy to welcome all who are interested in Rhode Island mathematics education to join our organization. Realizing that membership fees can be a burden, we offer a tiered membership structure.

RIMTA wants to...

- ◆ Promote an active interest in K-16 mathematics and its applications.
- ◆ Provide the opportunity for the exchange of ideas about teaching mathematics
- ◆ Further cooperative study between elementary, secondary, and college educators
- ◆ Work for the improvement of mathematics instruction at all levels.

RIMTA is....

Administered by an Executive Board composed of its officers (President, President-Elect, Treasurer, Secretary), and

- ◆ Past-President/ATMNE Rep
- ◆ NCTM Rep
- ◆ 7 At-Large Members

RIMTA has been doing its work in Rhode Island since 1916!
